Comments Love it Insightful
article. This is free to try but
very much worth it. There are
so many similar windows apps
out there but this one is quite
unique. The only problem is
there isnt a way to get it onto
my phone. So I might have to

use my pc to do the reports for now. Other than that I love it.

Q: Need help on display sum of values in jsp page i have a database which contain the following values: Name Price --

Name	Price
apple	4
banana	5
orange	6
tomato	8
melon	9

i am trying to display the sum of the above values in jsp page. Here is what i have done so far:

```
list = new ArrayList(); list = (ArrayList) request.getAttribute("list"); %>
```

System Requirements:

The Minimum requirements to be able to run The Harvest Moon series are fairly low. A PC that has been able to run Harvest Moon DS or any of the previous Harvest Moon games will be able to run this game. The requirements to play this game are a little bit more than those to play Harvest Moon DS. You will need a computer that is able to run a PS3 emulator, and a PSP emulator. These emulators will allow you to play the game in high

quality. The max amount of memory a computer has to have is 384 MB, you can
